Advanced Certificate in Teaching English to Young Learners

Although I have been teaching young children for many years, this course helped reiterate and validate many of the techniques that have been used along with learning new approaches on how to specifically help the second language learners of that age group.

Additionally, most of the strategies can be adapted to an older target audience, which make this course applicable to other participants.

One of the aspects that really appealed to me and helped me complete the course was that I was able to go at a pace that suited me well.

I appreciated the patience, feedback and support I received from my tutor.

Seema S. Sandhir - ESL Teacher (MA Reading Education) at American International School, Chennai, India.
