Cat

Pig

Rabbit

Puppet assembling instructions

1. Print the puppet patterns. The current paper size is for finger puppets, but if you increase the size of the cutouts, you will be able to create bigger puppets.
2. Cut out the patterns and place the cutouts over two layers of felt material.
3. Secure the pattern cutouts with pins to the layers of felt.
4. Cut out the felt around the puppet patterns. Remove the pins and save the cutout patterns to make more puppets later.
5. With a needle and thread, sew around the edges of the puppet cutouts. Make sure you leave the bottom part open.
6. Draw faces on the puppets with a permanent marker.
